

In compiling this annual report, ITOCHU focuses on three functions in particular: (1) providing an in-depth understanding of its unique business model to a wide range of readers around the world, (2) effectively explaining the processes and potential for ITOCHU to achieve sustainable growth in corporate value over the long term, and (3) by organizing our management policies and financial and non-financial capital and communicating them to internal and external stakeholders, fostering the virtuous cycle of cultivating mutual understanding through dialogue and achieving a greater level of management sophistication for the Company.

Annual Report 2020 was compiled based on this focus with consideration paid to the disclosure framework of the International Integrated Reporting Council (IIRC). Special emphasis was also placed on connectivity as well as the sustainability and future of our strategy and business model.

ITOCHU aims to steadily address social issues and rapid changes in the business environment, including its response to the COVID-19 pandemic, while being guided by its Group corporate mission, “*Sampo-yoshi*,” an ideals

and driving force that has allowed ITOCHU to overcome numerous hardships in its more than 160-year history. Furthermore, ITOCHU intends to build a foundation for sustainable growth and enhance corporate value, by targeting growth and further progress in both financial and non-financial capital that it has refined and accumulated to date, while moving to pursue both economic and social value.

In compiling this annual report, in addition to these points, we focused on giving explanation especially for the relationship between “corporate value based on the perspective for investment decisions,” as it relates to the Company’s shares, and “the pursuit of capital efficiency,” one of the Company’s management strategies.

Going forward, we intend to further improve our annual report as a medium for dialogue with a variety of stakeholders through reflecting their opinions.
