

ITOCHU in the “New Era for the *Sogo Shosha*”

## Generating Earnings in China and Asia

ITOCHU will fully leverage its strengths in the non-resource sector, centered on consumer-related businesses, such as textiles and food. We will contribute to abundance for the people of China and Asia and achieve sustained gains in corporate value while steadily moving ahead with our strategic business alliance and capital participation with CITIC and CP Group.

Focus Fields

### Non-Resource

Textiles were ITOCHU’s founding business. Moving forward, we will build a platform for stable earnings in the non-resource sector, including not only consumer-related businesses, such as textiles and food, but also machinery, chemicals, and other products. In this way, ITOCHU will continue to lead the industry.
