

## Business Investment

### Fundamental Approach

Along with strategic business alliances, business investment is an important means of creating new businesses. To actively promote strategic investments in areas of strength in a timely manner, we choose the optimal structure from a wide range of methods, such as establishing a wholly owned subsidiary, implementing joint investment with partners, and participating in management through M&As or converting to a consolidated subsidiary. In principle, we hold investments continuously. After making each investment, we work to maximize the investee's corporate

value and to expand trading profit and dividends received by fully utilizing our Groupwide capabilities. Given such considerations as larger-scale investments in recent years, we are rigorously screening the appropriateness of the business plan and acquisition price. For existing investments, to increase investment earnings and to exit quickly from low-efficiency assets, we are further strengthening monitoring procedures, centered on instituting more rigorous exit conditions and thoroughly implementing periodic investment review.

### Decision-Making Process for New Investments

We have established a multilayered decision-making process that achieves quick decision-making by giving a certain level of discretion to the Division Companies while striving to pursue investment return and curb investment risk.
