

—— ITOCHU Mission ——

Committed to the Global Good

**The ITOCHU group respects
the individual, society, and
the future in its Commitment
to the Global Good.**

Since its founding in 1858, ITOCHU has passed down the spirit of *sampo yoshi* (Good for the seller, Good for the buyer, and Good for society). After considering ways to demonstrate its commitment to society as an international corporation and to put this commitment into practice, in 1992 ITOCHU formulated “Committed to the Global Good” as a corporate philosophy. In 2009, in order for employees around the world to properly understand the philosophy and reflect it in their everyday work, the core element, “Committed to the Global Good,” was set as the ITOCHU Mission for the entire ITOCHU Group.

ITOCHU has formulated the Basic Policies for CSR Promotion in consideration of the corporate philosophy and changes in the internal and external business environments. The Company is promoting CSR in an organized and systematic manner. Based in part on opinions from inside and outside the Company, ITOCHU has designated CSR material issues* and incorporated them into CSR Action Plans, which reflect risks and opportunities in each business. In this way, the Company is utilizing the PDCA cycle to advance CSR through business. These activities also contribute to the achievement of the 2030 sustainable development goals (SDGs) that were adopted by the United Nations in 2015.

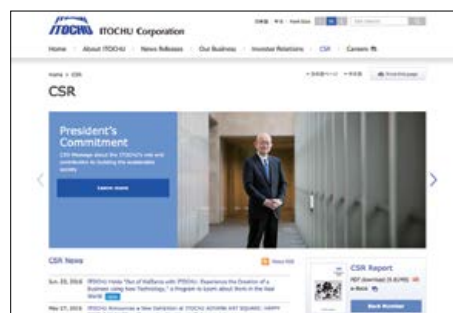

From among the initiatives that are being advanced in line with business strategies, those that are considered to be especially important from the viewpoint of investors have been selected for introduction in Annual Report 2016. For a wider range of CSR-related information, please refer to the CSR website or the Sustainability Report. The icons that appear both on the CSR website and in this report can be used to confirm relationships among material issues and business activities.

* Material issues: Important issues in sustaining our corporate activities
